

# 2.

## Driver for change: driving down costs

Keeping legacy applications running to view historical data is expensive. Managing older systems takes time and creates higher support costs.

We can help you cut costs and improve business efficiency

Are older systems draining your IT resources?

Our application decommissioning solution can help

### THE ISSUES

-  High recurring charges for legacy software and hardware maintenance
-  Increased IT support and data center overheads to manage legacy systems
-  It takes more effort to maintain old and obsolete systems

### THE BENEFITS

-  Retire legacy hardware and software to recoup costs
-  Store legacy data on a low-cost self-managing system
-  Deliver a rapid return on investment and low total ownership costs

INEFFICIENT PROCESSES

HIGH COSTS

POOR CUSTOMER SERVICE

IMPROVED PROCESSES

LOWER COSTS
